Position

Geotechnical Engineer-in-training

Ethos Engineering is seeking an individual to join our team who embodies Ethos' core values of People Matter, Make it Better, Infectious Enthusiasm, Teamwork, Unyielding Integrity, Excellence in the Ordinary, Two Ears One Mouth, Do More with Less, Embrace and Drive Change, and Have Fun!

Qualifications

- The ideal candidate will have an educational background in engineering fundamentals, with an emphasis on geotechnical engineering; excellent interpersonal skills; written and verbal communication skills; and will be a proactive problem solver.
- BS in Civil Engineering, Geological Engineering, or related engineering degree required.
- EIT is required or the ability to obtain the EIT within one year of hire.
- 0-3 years of relevant experience.
- AutoCAD experience preferred.
- Self-starter with good written and verbal communication skills.
- Ability to follow instructions, organize and prioritize work to meet scheduled deadlines.
- Superior time management, planning and ability to interact with clients.
- Work well in a team environment.
- Ability and willingness to travel to project sites in AZ .
- Physical requirements may require lifting up to 40 pounds and traversing over rugged terrain.

Responsibilities

- Perform geotechnical field investigations and construction oversight.
- Set up geotechnical investigations (i.e. driller acquisition, traffic control, permitting, utility locates, etc.).
- Perform basic support and design engineering computations, including quantity calculations, foundation design, slope stability, etc. under the guidance of a senior engineer.
- Will travel to project sites in Arizona.
- The job will be approximately 90% field work and 10% office work based in Tempe, AZ.
- The job will be full-time 40 hours with benefits.

Ethos Engineering is an equal opportunity employer who offers competitive salaries and benefits, challenging projects to work on, and a people-first environment.
