

Mid-Level Engineer - Geotechnical

Ethos is more than your typical geotechnical, structural, and civil engineering services firm. We've built an environment based on strong core values where people matter! We focus on you so you can focus on our clients. Our environment is one where people are excited to come to work, who enjoy spending time with their teammates, and feel a sense of community. We're a company focused on embracing and driving change, providing constant quality with unyielding integrity, and having fun! We're Ethos Engineering and we're looking for a qualified Mid-Level Geotechnical Engineer to join our Team!!!

Key Responsibilities

Work closely with Project Managers, Engineers, Designers, and other staff to perform the following duties:

- Perform basic support and design engineering computations, including pavement calculations, foundation design, slope stability, etc. under the guidance of a senior engineer;
- Prepare geotechnical design reports and perform construction oversight;
- Set up and direct geotechnical investigations (i.e. driller acquisition, traffic control, permitting, utility locates, etc.);
- May travel to project sites in Arizona; and
- The job will be full-time 40 hours with benefits.

Skills/Qualifications

We are looking for individuals who possess the following skills and qualifications:

- Embody the Ethos' core values of People Matter, Make it Better, Infectious Enthusiasm, Teamwork, Unyielding Integrity, Excellence in the Ordinary, Two Ears One Mouth, Do More with Less, Embrace and Drive Change, and Have Fun!
- The ideal candidate will have an educational background in engineering fundamentals, with an emphasis on geotechnical; excellent interpersonal skills; written and verbal communication skills; and will be a proactive problem solver;
- BS in Civil Engineering, Geological Engineering, or related engineering degree required;
- Arizona PE License or the ability to achieve within 6 months;
- Must have 5-15 years of geotechnical experience;
- Self-starter with good written and verbal communication skills;
- Ability to follow instructions, organize and prioritize work to meet scheduled deadlines;
- Superior time management, planning and ability to interact with clients;
- Proficient with Microsoft Word and Excel;
- Work well in a team environment;
- Ability and willingness to travel to project sites in AZ ;
- Physical requirements may require lifting up to 40 pounds and traversing over rugged terrain;
- Familiarity with geotechnical software such as Slope/W, Settle 3D or MSEW preferred.

By joining our TEAM, you will enjoy:

- A work-life balance with flexible working conditions.
- Paid holidays, including PTO based on years of experience.
- Excellent medical coverage, dental, and vision insurance with employee paid premiums (partial premiums paid for spouse and family). More than a \$12,000 value.
- Short- and long-term disability paid by company.
- Professional development programs with the ability to shape your career path.
- Covered industry association memberships and networking opportunities.

- The opportunity to give back to the communities we serve through various community volunteer activities.
- A relaxed and comfortable work environment where you can have fun with social events.

Ethos Engineering, LLC is an Equal Opportunity Employer offering competitive salaries and benefits, challenging projects to work on, and a people-first environment. Employment selection decisions are based on merit, qualifications, and abilities. Ethos does not discriminate in employment opportunities or practices based on race, color, religion, gender, national origin, age, sexual orientation, gender identity, disability, veteran status, or any other characteristic protected by country, regional, or local law.

Applicants must be legally authorized to work in the U.S. without employer sponsorship. We do not typically sponsor H1-B or any other work visa petitions.
