

## Our Geotechnical Team is Growing!

Ethos Engineering is pleased to announce that **Daniel Frèchette, PhD, PE** has recently joined Ethos Engineering as a Senior Geotechnical Engineer. Dr. Frèchette brings more than 22 years of experience on transportation, flood control, municipal, commercial, and industrial projects.

Dr. Frèchette holds a doctoral degree as well as his master and bachelor's degrees all from Arizona State University where he focused on geotechnical engineering. He consistently receives top marks from his clients for quality, technical capabilities, deliverables, and communication, all key in delivering a successful project.
